About the instructor: Angela is a Fine Artist /Art Instructor specializing in portraiture, sculpture, architectural ceramics, product design and development. Her work has been exhibited in galleries in Canada, Italy and Australia, and was also showcased earlier this year at the World Money Fair in Berlin.

In January 2016 Angela received the opportunity to study at the Istituto Poligrafico dell'Arte della Zecca. The centre is the only one of its kind in the world for artists seeking to specialize in the art of engraving and bas relief. The art of bas relief is in Angela's DNA, as she is the great-great-grand niece of the famous Benedetto Pistrucci, who served as Britain's Chief Medallist, crafting the first Saint George and the Dragon Gold Sovereign for the Royal Mint in 1817 as well as his seminal work, "The Waterloo Medal", which celebrated the end of the Napoleonic Wars. Angela was thrilled to work with the London Mint to commemorate the Bicentennial of the Modern Sovereign 1817-2017 with the minting of her first coin of the realm in early 2017 (*see Angela's new gold sovereign design of St. George and the Dragon at right*).
